Important Notice Regarding Your Open Range Service

Dear Customer:

We are writing to inform you that Open Range will be seeking authority from the Federal Communications Commission to possibly discontinue service on or after November 7, 2011. In particular, Open Range will be seeking authority to possibly discontinue its provision of the Voice over Internet Protocol (telephone) service you currently receive. On or after that date, Open Range may be discontinuing service throughout the following states: Alabama, Arkansas, California, Colorado, Delaware, Georgia, Illinois, Indiana, New Jersey, Ohio, Pennsylvania, South Carolina and Wisconsin.

If Open Range does discontinue service, you will need to take action to transfer your service to another service provider, such as a wireless or landline telephone service provider, to avoid the loss of telephone service, including access to 911 emergency services.

The following is an important FCC required notice:

The FCC will normally authorize this proposed discontinuance of service unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but not later than 15 days after the Commission releases public notice of the proposed discontinuance. Address them to the Federal Communications Commission, Wireline Policy Division, Washington, DC 20554, and include in your comments a reference to the § 63.71 Application of Open Range Communications Inc. Comments should include specific information about the impact of this proposed discontinuance upon you or your company, including any inability to acquire reasonable substitute service.

We regret any inconvenience that this possible discontinuance may cause you. Thank you for the opportunity to serve you, and we hope to continue serving you.

We have Open Range service and love It very much, our service includes the internet also telephone service.

This works fine with us, If we loose the telephone service we will have to subscribe for a separate line for a land line which will cost us more money for the service which we do not want.

We are living on fixed incomes with no cost of living raise for the last three years and probably more.

Food is costing more, along with gasoline health care insurance, Medicare along with other things. Every thing is going up in price except our Social Security. Congress voted them selves a raise for cost of living but us on SS got nothing so If we can bundle our Internet and telephone saves us money.

Please do not drop our telephone as It works so well for us and others who have Open Range.

Thank you.

Sincerely

Roger A Hyndman
